MODEL 160

The Model 160 stepper drive label applicator is designed for high-speed applications that need exceptional placement accuracy. The remote keypad control system and self teach operation allow for easy set up. The stripper plate assembly is fully adjustable and can be extended away from the applicator for precise label placement close to the product. The one-piece main plate construction and larger bearing shafts are designed to give years of maintenance free operation. Fast and accurate labeling of top, bottom or sides of products.

Features:

- High speed stepper motor driven.
- LCD operator interface for easy menu selection.
- Photo electric label sensor for greater accuracy.
- Label roll capacity up to 16 inch outer diameter.
- Self teaching applicator for easy label size changeover.
- Left & Right hand models.
- Exceptional label placement accuracy.

Specifications:

Speed:
